Course Description:

The Workforce Innovation Opportunity Act (WIOA II) and the California Adult Education Program (CAEP) are asking Adult Education programs to move toward an Integrated Education and Training (IET) model. This ESL course is created specifically to support English Learners that are enrolled in the NCCER: Core course as an introduction to the construction trades.

This ESL course focuses on the industry-specific vocabulary necessary to pass the NCCER: Core modules in order for adult learners to earn their NCCER: Core certification. Full descriptions of the Goals for each module are provided on the Course Description for the NCCER: Core course.

Goals: (Expected performance outcomes for students)

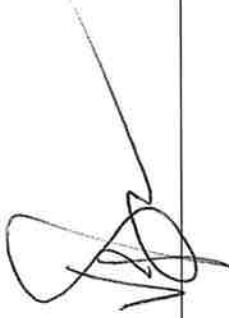

Students will be able to pass the written and performance tests for the following modules using and hearing communication only in English.

- Module 1: Basic Safety
- Module 2: Construction Math
- Module 3: Introduction to Hand Tools
- Module 4: Introduction to Power Tools
- Module 5: Introduction to Construction Drawings (Residential)
- Module 6: (optional) Introduction to Basic Rigging
- Module 7: Basic Communication Skills
- Module 8: Basic Employability Skills
- Module 9: Introduction to Material Handling

Evaluation:

John Wahl, Ed. D.
