ACTION REQUESTED

Approve Resolution No. 2-2023-2024 adopting the Gann Limit.

BACKGROUND INFORMATION

In 1979, Proposition 4 limited the growth in government spending to be no faster than the growth in population and inflation. This limit, which became known as Gann Appropriations Limits or simply Gann Limits, applies not only to the State of California, but also to cities, counties, special districts, school districts, and county offices of education. By calculation, school districts and county offices of education are exactly at their Gann Limit. If a school agency were over its Gann Limit, that agency may adopt a resolution increasing its Gann Limit by the amount needed and inform the State of California (ref. Government Code Section 7902.1).

The Gann Limit calculation applies an inflation factor and student population adjustment to the prior year appropriations limit. The spending and appropriation limits of TTUSD meet the Gann requirements. The attached resolution will approve this revised calculation.
