~~Transfer students to may be conditionally admitted for up to 30 days while waiting for the transfer of immunization records from his/her previous school; see the accompanying administrative regulation. However, the California Department of Public Health's California Immunization Handbook for Child Care Programs and Schools recommends that schools request parents/guardians to bring their child's personal immunization record from his/her health care provider to registration, rather than waiting for the cumulative file, especially if the student's former school is located outside the United States. In this way, districts would only need to request the record from the previous district for those students who could not present an adequate record at the time of entry.~~

~~Each transfer student shall be requested to present his/her immunization record, if possible, upon registration at a district school.~~

Transfer students shall be requested to present immunization records upon registration at district schools if possible.

(cf. 6173 - Education for Homeless Children)
