11. Why are you interested in becoming a Delegate? Please describe the skills and experiences you would bring to the Delegate Assembly. *

I am interested in continuing my service as a Delegate to provide a voice for my region, district, and community in statewide education policy, and to be engaged in improving the educational experience for all California students. I have served as President of my board during the most challenging time in education, and provided steady, thoughtful leadership that always placed the needs of students first. As a parent I have spent the last decade as an education leader building relationships and engaging stakeholders. I understand the interests and priorities of the community that I serve and can bring that perspective to the Delegate Assembly. As an attorney and former Deputy General Counsel for the League of California Cities, I value the resources and advocacy a statewide organization can provide to its members, and the role members play in setting, advancing and communicating the priorities of the organization. Finally, I am familiar with the role and responsibility that serving on Delegate Assembly brings, and am willing to invest the time and commitment to effectively serve.

13. What do you see as the biggest challenge facing governing boards and how can CSBA help address it? *

The biggest challenge I see facing governing boards is managing resources and prioritizing system support and accountability to improve academic outcomes and achievements for all students. Governing boards need to ensure that improving academic outcomes remains their top priority. CSBA can help address this challenge by highlighting that improving academic outcomes is also the top priority of CSBA. CSBA can use its statewide platform to educate legislators and education stakeholders on the challenges governing boards are facing related to resources and support to meet this priority. Governing boards need CSBA to continue to advocate for stable education funding, full federal funding reimbursement of special education costs to governing boards, and continued advocacy for local control and decision-making by governing boards that are closest to the students they serve.
