Comprehensive School Safety Plan Purpose

Effective January 1, 2019, Assembly Bill 1747 (Rodriguez), School Safety Plans, became law. This bill requires that during the writing and development of the comprehensive school safety plan (CSSP), the school site council or safety committee consult with a fire department and other first responder entities in addition to currently required entities. It requires the CSSP and any updates made to the plan to be shared with the law enforcement agency, the fire department, and the other first responder entities.

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Glenshire Elementary School (10990 Dorchester Dr., Truckee, CA 96161).

Summary of Data

Glenshire Elementary School has developed a comprehensive plan that addresses a variety of crisis situations. The school fosters awareness, preparedness, and school safety through regularly scheduled safety drills, as well as training for staff. Our school site has access to a full-time School Resource Officer (SRO) who works closely with the site and the district to ensure our campus remains a safe environment. The leadership team reviews safety related issues and reports, then plans prevention, intervention, and post-intervention activities with students, parents and teachers in a comprehensive school safety plan. The school safety plan is reviewed annually and approved by our school site council.

All students at Glenshire Elementary are guided by specific expectations that promote safety, kindness, respect and responsibility. The goal of the Glenshire Elementary discipline program is to help educate and support our students by providing clear boundaries and expectations for behavior and restorative practices which help repair and restore relationships when mistakes are made. Students and parents are informed of the discipline policies via the school website, school handbook, class circles and class visits from administration at the beginning of each school year. In addition, weekly newsletters, e-mails and social media provide parents with regular communication. Glenshire Elementary utilizes a progressive discipline process in order to produce a desired change in student behavior, attitude and/or performance. Consequences for violations of the disciplinary policy may include conferences with students, loss of privilege, restitution/community service, in-school suspension, out of school suspension, and/or a behavior contract. Parents and/or guardians receive an automated phone call each day a student has an unverified absence. Parents and guardians receive trimester grade reports at student conferences in the fall and by mail in the winter and spring.

Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)

District employees who are mandated reporters, as defined by law and administrative regulation, are obligated to report all known or suspected incidents of child abuse and neglect. The Superintendent or designee shall establish procedures for the identification and reporting of known and suspected child abuse and neglect in accordance with the law. These employees receive annual training on the mandated reporting process. Procedures for reporting child abuse shall be included in the district and/or school comprehensive safety plan. (Education Code 32282). The Superintendent or designee shall provide training regarding the duties of mandated reporters.

Definitions

Child abuse or neglect includes the following: (Penal Code 11165.5, 11165.6)

2. Sexual abuse of a child, including sexual assault or sexual exploitation, as defined in Penal Code 11165.1.
3. Neglect of a child as defined in Penal Code 11165.2.
4. Willful harming or injuring of a child or the endangering of the person or health of a child as defined in Penal Code 11165.3.

(Education Code 44807)
4. An injury caused by a school employee's use of force that is reasonable and necessary to quell a disturbance threatening physical injury to persons or damage to property, to protect himself/herself, or to obtain weapons or other dangerous objects within the control of the student. Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse or neglect. However, reasonable suspicion does not require certainty that child abuse or neglect has occurred nor does it require a specific medical indication of child abuse or neglect. (Penal Code 11166)

Reportable Offenses

A mandated reporter shall make a report using the procedures provided below whenever, in his/her professional capacity or within the scope of his/her employment, he/she has knowledge of or observes a child whom the mandated reporter knows or reasonably suspects has been the victim of child abuse or neglect. The principal so notified shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law, Board policy, and administrative regulation. At the mandated reporter's request, the principal may assist in completing and filing the necessary forms.

Reporting the information to an employer, supervisor, principal, school counselor, co-worker, or other person shall not be a substitute for making a mandated report to the appropriate agency. (Penal Code 11166)

Training

Within the first six weeks of each school year, the Superintendent Chief Learning Officer or designee shall provide training on mandated reporting requirements to district employees and persons working on their behalf who are mandated reporters. The Superintendent or designee shall give the student the choice of being interviewed in private or in the presence of any adult school employee or volunteer aide selected by the student. (Penal Code 11174.3)

A staff member or volunteer aide selected by a child may decline to be present at the interview. If the selected person accepts, the principal or designee shall inform him/her of the following requirements: (Penal Code 11174.3)

For parents/guardians whose primary language is not English, such procedures shall be in their primary language and, when communicating orally regarding those procedures, an interpreter shall be provided.

To file a complaint against a district employee or other person suspected of child abuse or neglect at a school site, parents/guardians may file a report by telephone, in person, or in writing with any appropriate agency identified above under "Reporting Procedures." If a parent/guardian makes a complaint about an employee to any other employee, the employee receiving the information shall notify the parent/guardian of procedures for filing a complaint with the appropriate agency. The employee also is obligated pursuant to Penal Code 11166 to file a report himself/herself using the procedures described above for mandated reporters.

(cf. 1312.1 - Complaints Concerning District Employees)

In addition, if the child is enrolled in special education, a separate complaint may be filed with the California Department of Education pursuant to 5 CCR 4650.

(cf. 1312.3 - Uniform Complaint Procedures)

Notifications

Before beginning employment, any person who will be a mandated reporter by virtue of his/her position shall sign a statement indicating that he/she has knowledge of the reporting obligations under Penal Code 11166 and will comply with those provisions. The signed statement shall be retained by the Superintendent Chief Learning Officer or designee. (Penal Code 11166.5)

Employees who work with dependent adults shall be notified of legal responsibilities and reporting procedures pursuant to Welfare and Institutions Code 15630-15637.

The Superintendent Chief Learning Officer or designee also shall notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of his/her professional capacity or outside the scope of his/her employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)
2. If a mandated reporter fails to timely report an incident of known or reasonably suspected child abuse or neglect, he/she may be guilty of a crime punishable by a fine and/or imprisonment. (Penal Code 11166)

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

The Tahoe Truckee Unified School District will take all necessary measures to keep students, staff, and visitors safe in the event of a disaster. The TTUSD Emergency Response Plan will be provided to each school site and is not available to the Public. The Emergency Response Plan includes the following:

Incorporates strategies of the Incident Command System, Standardized Emergency Management System, and National Incident Management System.

Maps out specific evacuation procedures within the school disaster plan.

Provides guidance for emergency response to a variety of potential hazards and incidents, including “duck and cover” procedures following an earthquake.

Identifies emergency response training and exercise opportunities for students and staff.

Public Agency Use of School Buildings for Emergency Shelters

We offer our schools for public shelters in case of a natural disaster or pandemic event. We cooperate with the Placer, Nevada, and El Dorado County Emergency Response Team as well as the Town of Truckee Emergency Management Team and the Red Cross. If our buildings are used as shelters during the school day, non students are supervised to protect the safety of our students. The school district or county office of education shall cooperate with the public agency in furnishing and maintaining the services as the school district or county office of education may deem necessary to meet the needs of the community. (Ed code 32282 B (V ii))

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

The Governing Board desires to provide district students access to educational opportunities in an orderly school environment that protects their safety and security, ensures their welfare and well-being, and promotes their learning and development. The Board shall develop rules and regulations setting the standards of behavior expected of district students and the disciplinary processes and procedures for addressing violations of those standards, including suspension and/or expulsion.

The grounds for suspension and expulsion and the procedures for considering, recommending, and/or implementing suspension and expulsion shall be only those specified in law, in this policy, and in the accompanying administrative regulation.

Except when otherwise permitted by law, a student may be suspended or expelled only when his/her behavior is related to a school activity or school attendance occurring within any district school or another school district, regardless of when it occurs, including, but not limited to, the following: (Education Code 48900(s))

While on school grounds

While going to or coming from school

During the lunch period, whether on or off the school campus

During, going to, or coming from a school-sponsored activity

District staff shall enforce the rules concerning suspension and expulsion of students fairly, consistently, equally, and in accordance with the district's nondiscrimination policies.

Appropriate Use of Suspension Authority

Except when a student's act violates Education Code 48900(a)-(e), as listed in items #1-5 under "Grounds for Suspension and Expulsion: Grades K-12" of the accompanying administrative regulation, or when his/her presence causes a danger to others, suspension shall be used only when other means of correction have failed to bring about proper conduct. (Education Code 48900.5, 48900.6)

A student's parents/guardians shall be notified as soon as possible when there is an escalating pattern of misbehavior that could lead to on-campus or off-campus suspension.

No student in grades K-3 may be suspended for disruption or willful defiance, except by a teacher pursuant to Education Code 48910. (Education Code 48900)

Students shall not be suspended or expelled for truancy, tardiness, or absenteeism from assigned school activities.

On-Campus Suspension

To ensure the proper supervision and ongoing learning of students who are suspended for any of the reasons enumerated in Education Code 48900 and 48900.2, but who pose no imminent danger or threat to anyone at school and for whom expulsion proceedings have not been initiated, the Superintendent or designee shall establish a supervised suspension classroom program which meets the requirements of law.

Based on the data, the Board shall address any identified disparities in the imposition of student discipline and shall determine whether and how the district is meeting its goals for improving school climate as specified in its local control and accountability plan.

School-Level Complaint Process/Grievance Procedure

Complaints of sexual harassment, or any behavior prohibited by the district's Nondiscrimination/Harassment policy - BP 5145.3, shall be handled in accordance with the following procedure:

1. Notice and Receipt of Complaint: Any student who believes he/she has been subjected to sexual harassment or who has witnessed sexual harassment may file a complaint with any school employee. Within one school day of receiving a complaint, the school employee shall report it to the district Coordinator for Nondiscrimination/Principal. In addition, any school employee who observes any incident of sexual harassment involving a student shall, within one school day, report this observation to the Coordinator/Principal, whether or not the victim files a complaint.

In any case of sexual harassment involving the Coordinator/Principal to whom the complaint would ordinarily be made, the employee who receives the student's report or who observes the incident shall instead report to the Superintendent Chief Learning Officer or designee.

2. Initiation of Investigation: The Coordinator/Principal shall initiate an impartial investigation of an allegation of sexual harassment within five school days of receiving notice of the harassing behavior, regardless of whether a formal complaint has been filed. The district shall be considered to have "notice" of the need for an investigation upon receipt of information from a student who believes he/she has been subjected to harassment, the student's parent/guardian, any employee who received a complaint from a student, or any employee or student who witnessed the behavior.

If the Coordinator/Principal receives an anonymous complaint or media report about alleged sexual harassment, he/she shall determine whether it is reasonable to pursue an investigation considering the specificity and reliability of the information, the seriousness of the alleged incident, and whether any individuals can be identified who were subjected to the alleged harassment.

3. Initial Interview with Student: When a student or parent/guardian has complained or provided information about sexual harassment, the Coordinator/Principal shall describe the district's grievance procedure and discuss what actions are being sought by the student in response to the complaint. The student who is complaining shall have an opportunity to describe the incident, identify witnesses who may have relevant information, provide other evidence of the harassment, and put his/her complaint in writing. If the student requests confidentiality, he/she shall be informed that such a request may limit the district's ability to investigate.

4. Investigation Process: The Coordinator/Principal shall keep the complaint and allegation confidential, except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

The Coordinator/Principal shall interview individuals who are relevant to the investigation, including, but not limited to, the student who is complaining, the person accused of harassment, anyone who witnessed the reported harassment, and anyone mentioned as having relevant information. The Coordinator/Principal may take other steps such as reviewing any records, notes, or statements related to the harassment or visiting the location where the harassment is alleged to have taken place.

When necessary to carry out his/her investigation or to protect student safety, the Coordinator/Principal also may discuss the complaint with the Superintendent Chief Learning Officer or designee, the parent/guardian of the student who complained, the parent/guardian of the alleged harasser if the alleged harasser is a student, a teacher or staff member whose knowledge of the students involved may help in determining who is telling the truth, law enforcement and/or child protective services, and district legal counsel or the district's risk manager.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

5. Interim Measures: The Coordinator/Principal shall determine whether interim measures are necessary during and pending the results of the investigation, such as placing students in separate classes or transferring a student to a class taught by a different teacher.

6. Optional Mediation: In cases of student-on-student harassment, when the student who complained and the alleged harasser so agree, the Coordinator/Principal may arrange for them to resolve the complaint informally with the help of a counselor, teacher, administrator, or trained mediator. The student who complained shall never be asked to work out the problem directly with the accused person unless such help is provided and both parties agree, and he/she shall be advised of the right to end the informal process at any time.

(cf. 5138 - Conflict Resolution)

7. Factors in Reaching a Determination: In reaching a decision about the complaint, the Coordinator/Principal may take into account:

- a. Statements made by the persons identified above
- b. The details and consistency of each person's account
- c. Evidence of how the complaining student reacted to the incident
- d. Evidence of any past instances of harassment by the alleged harasser
- e. Evidence of any past harassment complaints that were found to be untrue

To judge the severity of the harassment, the Coordinator/Principal may take into consideration:

- a. How the misconduct affected one or more students' education
- b. The type, frequency, and duration of the misconduct
- c. The identity, age, and sex of the harasser and the student who complained, and the relationship between them
- d. The number of persons engaged in the harassing conduct and at whom the harassment was directed
- e. The size of the school, location of the incidents, and context in which they occurred
- f. Other incidents at the school involving different students

8. Written Report on Findings and Follow-Up: No more than 30 days after receiving the complaint, the Coordinator/Principal shall conclude the investigation and prepare a written report of his/her findings. This timeline may be extended for good cause. If an extension is needed, the Coordinator/Principal shall notify the student who complained and explain the reasons for the extension.

The report shall include the decision and the reasons for the decision and shall summarize the steps taken during the investigation. If it is determined that harassment occurred, the report shall also include any corrective actions that have or will be taken to address the harassment and prevent any retaliation or further harassment. This report shall be presented to the student who complained, the person accused, the parents/guardians of the student who complained and the student who was accused, and the Superintendent Chief Learning Officer or designee.

In addition, the Coordinator/Principal shall ensure that the harassed student and his/her parent/guardian are informed of the procedures for reporting any subsequent problems. The Coordinator/Principal shall make follow-up inquiries to see if there have been any new incidents or retaliation and shall keep a record of this information.

Confidentiality

All complaints and allegations of sexual harassment shall be kept confidential except as necessary to carry out the investigation or take other subsequent necessary action. (5 CCR 4964)

However, when a complainant or victim of sexual harassment notifies the district of the harassment but requests confidentiality, the compliance officer shall inform him/her that the request may limit the district's ability to investigate the harassment or take other necessary action. When honoring a request for confidentiality, the district will nevertheless take all reasonable steps to investigate and respond to the complaint consistent with the request.

When a complainant or victim of sexual harassment notifies the district of the harassment but requests that the district not pursue an investigation, the district will determine whether or not it can honor such a request while still providing a safe and nondiscriminatory environment for all students.

(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)

Students shall not wear clothing that presents a health or safety hazard or causes a substantial disruption to the educational program.

District and school rules pertaining to student attire shall be included in student handbooks, may be posted in school offices and classrooms, and may be periodically reviewed with all students as necessary.

Students shall not be prohibited from dressing in a manner consistent with their gender identity or gender expression or with their religious or cultural observance.

In addition, the dress code shall not discriminate against students based on hair texture and protective hairstyles, including, but not limited to, braids, locks, and twists. (Education Code 212.1)

The principal or designee is authorized to enforce this policy and shall inform any student who does not reasonably conform to the dress code. The dress code shall not be enforced in a manner that discriminates against a particular viewpoint or results in a disproportionate application of the dress code based on students' gender, sexual orientation, race, ethnicity, household income, or body type or size.

School administrators, teachers, and other staff shall be notified of appropriate and equitable enforcement of the dress code.

When practical, students shall not be directed to correct a dress code violation during instructional time or in front of other students.

Repeated violations or refusal to comply with the district's dress code may result in disciplinary action.

Gang-Related Apparel

The principal, staff, and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a proposed dress code shall be presented to the Board, which shall approve the plan upon determining that it is necessary to protect the health and safety of the school environment. The dress code policy may be included in the school's comprehensive safety plan. (Education Code 35183)

When determining specific items of clothing that may be defined as gang apparel, the school shall ensure that the determination is free from bias based on race, ethnicity, national origin, immigration status, or other protected characteristics.

Uniforms

The Board may approve a school-initiated dress code requiring students at the school to wear a school uniform whenever the Board determines that such a dress code will promote student achievement, a positive school climate, and/or student safety.

The Superintendent Chief Learning Officer or designee shall establish procedures whereby parents/guardians may choose to have their children exempted from the school uniform policy. Students shall not be penalized academically, otherwise discriminated against, or denied attendance to school if their parents/guardians so decide. (Education Code 35183)

The Superintendent Chief Learning Officer or designee shall ensure that resources are identified to assist economically disadvantaged students in obtaining uniforms. (Education Code 35183)

Glenshire Elementary School Dress Code:

To help us maintain the best learning environment, students should come to school ready to be active learners. Clothing should have appropriate graphics. We encourage the wearing of hats outside, but caps with brims and hoods are not to be worn in the classrooms, library or assemblies. Glenshire students are active everyday and should wear appropriate footwear for playing and P.E. Heelys are not allowed on campus during school hours. Should students break the dress code, they will be asked to change.

(J) Procedures to Prepare for Active Shooters

TTUSD believes that the preparation of staff and students for potential active shooters on campus is critical. TTUSD has adopted and implemented a comprehensive training program called ALICE. ALICE stands for Alert, Lockdown, Inform, Counter, Evacuate. The ALICE training standard takes a departure from the traditional lockdown process that was in place in the District. ALICE embraces active decision making on the part of the staff and older students to address an armed intruder including an active shooter situation or threatening scenario. All students and staff are trained in ALICE protocols annually using age-appropriate materials. Each site also conducts regular training and drills throughout the school year.

Procedures for Preventing Acts of Bullying and Cyber-bullying

The Governing Board recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group shall, through physical, written, verbal, visual, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent Chief Learning Officer or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent Chief Learning Officer or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the district's uniform complaint procedures specified in AR 1312.3. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

Definitions

Bullying is an unwanted, aggressive behavior that involves a real or perceived imbalance of power between individuals with the intent to cause emotional or physical harm. Bullying can be physical, verbal, or social/relational and involves repetition or potential repetition of a deliberate act.

Cyberbullying includes the electronic creation or transmission of harassing communications, direct threats, or other harmful texts, sounds, or images. Cyberbullying also includes breaking into another person's electronic account or assuming that person's online identity in order to damage that person's reputation.

Examples of the types of conduct that may constitute bullying and are prohibited by the district include, but are not limited to: Physical bullying that inflicts harm upon a person's body or possessions, such as hitting, kicking, pinching, spitting, tripping, pushing, taking or breaking someone's possessions, or making cruel or rude hand gestures

Verbal bullying that includes saying or writing hurtful things, such as teasing, name-calling, inappropriate sexual comments, taunting, or threats to cause harm

Social/relational bullying that harms a person's reputation or relationships, such as leaving a person out of an activity on purpose, influencing others not to be friends with someone, spreading rumors, or embarrassing someone in public

Cyberbullying, such as sending demeaning or hateful text messages or emails, sending rumors by email or by posting on social networking sites, or posting embarrassing photos, videos, web site, or fake profiles

Measures to Prevent Bullying

Providing to students, through student handbooks and other age-appropriate means, information about district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying

Encouraging students to notify school staff when they are being bullied or when they suspect that another student is being bullied, and providing means by which students may report threats or incidents confidentially and anonymously

Conducting an assessment of bullying incidents at each school and, if necessary, increasing supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, and cafeterias

Annually notifying district employees that, pursuant to Education Code 234.1, any school staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so

Staff Development

The Superintendent Chief Learning Officer or designee shall make the California Department of Education's online training module on the dynamics of bullying and cyberbullying, which includes the identification of bullying and cyberbullying and the implementation of strategies to address bullying, available annually to all certificated staff and to other employees who have regular interaction with students. (Education Code 32283.5)

The Superintendent Chief Learning Officer or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment, intimidation, and bullying of district students. The district shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3 - Uniform Complaint Procedures. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report such observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent Chief Learning Officer or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.

Discipline/Corrective Actions

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent Chief Learning Officer or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

The Superintendent Chief Learning Officer, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent Chief Learning Officer or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.

Safety Plan Review, Evaluation and Amendment Procedures

The Principal will update the plan accordingly and provide copies to local police and fire departments for review. The final updated CSSP will be presented and approved by School Site Council at a public meeting by March 1 of the current school year. Agendas of the meeting will be posted in accordance with the Brown Act and notification of the CSSP review and approval will be sent to the Town Mayor or equivalent.

Glenshire Elementary Incident Command System

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Step Two: Identify the Level of Emergency

Step Three: Determine the Immediate Response Action

Step Four: Communicate the Appropriate Response Action

Armed Assault on Campus

In the event of a violent intruder, the Tahoe Truckee Unified School District uses the ALICE method in place of traditional lockdown. Please read through the information listed below to be familiarized with the protocol.

A-Alert:

An alert can come from anywhere (P.A. system, students, teachers, disruptive actions, etc.). It is important to be aware at all times and react should any type of alert be given.

L- Lockdown:

Door is locked and shut. Lights are turned off. Door is barricaded with furniture or any other items that would effectively prevent a violent intruder from entering the room. Teachers and students should remain on their feet and away from any direct line of fire. At no times are individuals to crowd into a corner making themselves easy targets. Teachers and students should be prepared to use counter measures in the event of a worst case scenario.

I- Inform:

One should assume that no information will be available. However, use whatever methods are available to gain information about the event (email, internet, texting, P.A. system, phone calls, etc.). If you know the location of the intruder, use this to make a decision as to whether you should evacuate or barricade.

C-Counter:

Counter measures are used as a last resort when a violent intruder gains entrance to a room and there are no other means for escape. Counter measures consist of throwing any available objects at the head of the intruder. Also, a SWARM technique may be used where multiple people rush the individual to take them to the ground and hold them there until law enforcement arrives.

E - Evacuate:

Evacuating the building is the first option and should be used whenever it is available. Evacuating to a relocation site is ideal, but leaving the building and surrounding area should be the primary concern. If evacuating isn't possible - due to the close proximity of the intruder -then locking down while barricading is the next step. Look for exits in the classroom as well, such as, other doors, windows, etc.

Active Intruder/ Armed Intruder Response Clipboard Page: Evacuate, Barricade, Counter

HOW TO RESPOND WHEN AN ACTIVE INTRUDER IS IN YOUR VICINITY:

Quickly determine the most reasonable way to protect your own life. Remember that students and visitors are likely to follow the lead of employees and managers during an active intruder situation.

1. EVACUATE

If there is an accessible escape path, attempt to evacuate the premises. Be sure to:

- Have an escape route and plan in mind
- Evacuate regardless of whether others agree to follow
- Leave your belongings behind
- Help others escape, if possible
- Prevent individuals from entering an area where the armed intruder may be
- Keep your hands visible and free of objects (if possible)
- Follow the instructions of any police officers

- Do not attempt to remove wounded people
- Call 911 when safe to do so

2. BARRICADE

If evacuation is not possible, find a place to hide/ barricade where the active intruder is less likely to find you. The purpose of barricade is to deter or delay intruder's entry.

- Be out of the armed intruder's view
- Provide protection if shots are fired in your direction (i.e. closed and locked door)
- Do not trap or restrict your options for movement
- Lock the door
- Barricade the door with heavy furniture and/ or any materials available to keep door from being opened (i.e. tie door, use cables to restrict door hardware, jam door with doorstop)
- Silence cell phones
- Turn off any sources of noise
- Hide behind large items
- Remain quiet
- Dial 911, if possible, to alert police of intruder's location (If you cannot speak, leave 911 line open so dispatcher can listen)
- Prepare for counter

3. COUNTER

As a last resort, and only when your life is in imminent danger, attempt to disrupt and/ or incapacitate intruder. If you are not able to evacuate, barricade, or if ambushed/ there is no opportunity to respond:

Loss or Failure Of Utilities

Utility: Major System Failure

Site Action

1) Power failure.

- Site Administrator notifies Maintenance and appropriate utility company.
- Students are to remain in class with their teacher and are to be under the supervision of the staff at all times. If you are in complete darkness, move students to a more lighted area within the building. Notify the office of your location when possible.
- Teachers are to turn off all appliances, computers, and other electrical equipment. Turn off electric motors. This will help us avoid damage from a power surge once power is resumed.
- Teachers without a class are to report to the School Office. They will assist as needed in classrooms and act as "runners."
- We will communicate with classes via "runners" and/ or bullhorns.
- If power is out for an extended period of time, we will attempt to maintain our regular class schedule (i.e. maintain starting and ending times for periods.) You will be notified of the specific schedule to be followed.
- Until told to do otherwise, students/staff are to remain in their classrooms. Please do not release students from class until instructed to do so.
- If school is to be dismissed early, you will be notified. (Because of the time required for transportation to activate the buses for the students, it may be several hours between when we lose power and the time school can be dismissed.)

2) Downed power lines or broken gas mains.

- Evacuate the area.
- Move upwind from leaks.

- Do not touch or move any power lines.
 - Call Maintenance.
- 3) Main telephone failure.
- Use nearest operational phone (cell phone, pay phone, residence).
 - Notify the District Office.
- 4) Water service disruption.
- Do not use toilets or other water facilities. Leave all sinks in the off position.
 - Contact Maintenance.

District Action

- Dispatch appropriate Maintenance personnel to site.
- Establish emergency communications as necessary.
- Coordinate emergency response from Transportation, Food Services, etc.
- Coordinate with appropriate utility.

Psychological Trauma

Tips for the classroom

Classroom debriefing is a very successful form of crisis intervention in traumatic incidents. These activities provide a break from the normal classroom routine and give students a chance to begin to ventilate feelings and explore the implications and their reactions to the event in a safe, structured, supportive environment with trained, caring adults.

Keep in mind that every participant has the right to pass, interaction between members should be respectful, and most importantly, what is said is confidential unless the facilitators believe someone is in danger of hurting themselves or others.

All students, regardless of age, experience loss and grief when given a safe environment in which to express what they are experiencing. This can become a process of growth and healing. The following guidelines are meant to provide just such an environment.

- Do not deny any students their feelings. Give them permission to express what they are experiencing without shame.
- Do not judge one student's reaction by another's.
- Reassure them that anger, guilt, sadness, and tears are normal responses to loss.
- Tell them you are sorry about the loss.
- Encourage students to talk about their feelings, but respect the right not to talk if they choose not to. Suggest alternative means of expressing themselves such as drawing their feelings, writing a short story or poem, sculpting with clay, listening to music which seems to capture their feelings, etc.
- Assist students in understanding that to heal they will need time alone as well as time with their friends and family.
- Let them know that a person can be very sad even though they may not be crying.
- Help students to recognize their anger and to find non-hurtful, constructive ways of ventilating it.
- Encourage students to discuss their guilt feelings. Help them to determine if their guilt is justified or rational. Let them know they are only human and that we all continue to learn as we experience more of life.
- Charitable and other altruistic acts provide socially constructive means of mourning and can help to mitigate feelings of guilt. Be cautious of excessive memorials.
- Be aware of student's intellectual and emotional limitations and understand their development stage.
- Provide honest, clear and direct answers to questions about the death, the funeral, and other aspects of the loss.
- When you don't have an accurate answer to something, say so.
- When you sense a student or staff member needs individual help, notify your crisis response team.

What can we do as staff to comfort students and each other?

On-going Activities

With all groups, a variety of activities might be appropriate as the days go by. Classroom activities for students such as drawing, journal writing, play reenactment, creative writing or a similar event with different outcome or discussion groups are very helpful. Writing thank you notes to the emergency responders or getting involved in an activity to assist the parents/family of the victim(s) are all ways to continue the ventilating of feelings and help children recover from the trauma.

Providing separate Safe Rooms for children and staff to use as a resource when they are unable to cope and just need a place to take a time out is another activity. These rooms are to be supervised by the Incident Management Team or designee and should have writing and drawing supplies available as well as information on grief and trauma along with food and drink.

Staff meetings held either before school or after school for the next several days after the incident is important. It is here that staff can draw strength and support from one another, so they can continue to support students. Again, all staff need to be included, not just teachers.

Suspected Contamination of Food or Water

AR 3514 - Environmental Safety

The quality and safety of the district's drinking water sources shall be regularly assessed and drinking fountains shall be regularly cleaned and maintained to avoid the presence of dirt, mold, or other impurities or health concerns.

Whenever any contaminants in the drinking water are determined to be a concern, the Superintendent Chief Learning Officer or designee shall take reasonable steps to identify the source and mitigate the concern to ensure the availability of safe drinking water. As needed, the Superintendent Chief Learning Officer or designee shall provide alternative sources of drinking water, such as bottled water, to ensure that students have access to fresh drinking water at mealtimes and at other times throughout the day.

Whenever testing of drinking water finds concentrations of lead that exceed federal and state standards, the Superintendent Chief Learning Officer or designee shall notify parents/guardians and take immediate steps to make inoperable any fountains or faucets where excess lead levels may exist. Tactical Responses to Criminal Incidents

Faculty Initial Actions and Response

The district recognizes that catastrophic events can occur with little or no warning. The following information is to assist you should an incident occur.
