Actual & Projected Tax Rates

The District's tax rates were as follows for the 2022-23 fiscal year (per \$100,000 of assessed valuation):

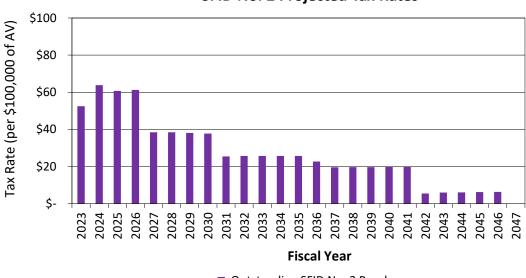

- SFID No. 1: 0.053162% or \$53.16
- SFID No. 2: 0.052460% or \$52.46

The District's projected tax rates are shown below. They are based on the following assumptions:

- Annual assessed value growth of 3.25%
- 4% unsecured tax delinquency
- No supplemental tax collections (which typically lower the annual tax rate)

Bonding Capacity

Bonding capacity is a statutory limit on the amount of general obligation bonds that can be issued at any given time. The District is also limited by the amount of bond authorization approved by voters. Bonding capacity is based on:

- Current assessed value multiplied by 2.50% statutory debt limit factor
- Less: outstanding general obligation bonds

Estimated District Bonding Capacity (1)

2022-23 District Assessed Value	\$ 29,477,542,485

District Credit Ratings

The three major credit rating agencies are Moody's, Standard & Poor's, and Fitch. Districts are rated on (1) local economy/tax base (30% of rating), (2) district finances (30%), (3) district debt/pension obligations (20%) and (4) district management (20%). Based on that information, districts are assigned a rating in accordance with the respective rating scale. The District's GO bonds current ratings are 'Aa1' from Moody's (as of February 8, 2023) and 'AA' from Standard & Poor's (as of April 27, 2023). The District's COP current rating is 'AA-' from Standard & Poor's (as of April 27, 2023). The District does not have a Fitch rating.

Market Update

As shown below, U.S. Treasury rates have experienced significant increases. Interest rates have risen from pandemic lows as a result of inflation/supply chain constraints, the war in Ukraine, the banking crisis and Fed rate increases (both taken and anticipated).

Refunding Opportunities

The District's 2013 General Obligation Refunding Bonds, Series B can potentially be refinanced and yield savings for District taxpayers. However, the District's estimated present value savings is currently below the industry benchmark of 3% present value savings. The refinancing opportunity will continue to be monitored.

New Developments for California Bond Financings

Investing in Our Communities Act

This standalone bill has been introduced to the House of Representatives. It would restore a provision eliminated in 2017 by the Tax Cuts and Jobs Act. The bill would allow states and localities, including school districts, to issue tax-exempt advanced refinancings rather than taxable advanced refinancings. The result would be lower interest rates for districts when refinancing debt on an advanced basis.

Senate Bill 532

If approved, this bill would remove the current legal requirement to include certain financial disclosures in the 75-word ballot label for new bond measures. Instead, it would enable local jurisdictions to provide such information in the voter information guide, which provides more space for appropriate context and explanation. CASBO is in support of the change, as it is believed it would help voters better understand the potential financial impacts of a proposed tax measure.

Potential State-Wide Bond Measures for School Facilities

Two new State-wide bonds (Assembly Bill 247 and Senate Bill 28) are pending in the legislature. Both bonds would provide funds for California education facilities. Assembly Bill 247 would provide an unspecified amount in funding, while Senate Bill 28 would provide \$15.5 billion in funding. Senate Bill 28 would also increase the statutory bonding capacity for K-14 districts.

District's Compliance with Post-Issuance Requirements

The District has monitored its compliance with post-issuance requirements, including:

- Assign responsible personnel of the District to monitor and ensure compliance with the restrictions contained in each issuance's tax certificate
- Provide adequate training to responsible District personnel to monitor compliance
- Establish adequate record retention and calendaring mechanisms internally to ensure that the District will be able to establish post issuance compliance
- Maintain records detailing the investment and expenditures of financing proceeds
- Seek expert advice regarding compliance with the arbitrage rebate and yield restriction provisions
- Carefully monitor and calendar the dates by which financing proceeds should be expended to comply with yield restriction and rebate exceptions and the dates rebate must be paid, if applicable
- Monitor use and retain contracts related to the use of the projects financed by the issuances throughout the term of the financings
- Regularly consult with bond counsel and other District advisors regarding any issues that arise regarding post issuance compliance
